7. Please describe any practices that the Instructional Assistant specifically used that created or interfered with a welcoming and supportive learning environment.

Everything was really good. Thanks Vedant.

Vedant always gave very supportive and helpful feedback!

Vedant consistently welcomed questions and broke down complex, technical topics into easy-to-understand examples that were applicable to our interests and future professional goals. He's an exceptional TA.

Vedant hosted review sessions that created a great environment for students that may have been struggling to take a stab at explaining complex topics. My understanding improved greatly from these sessions because I was able to throw out ideas, ask any and all questions, and receive helpful feedback until I truly understood what was going on.

I also remember times where students may have said something degrading about themselves or something similar to asking stupid questions and Vedant would quickly provide support.

Vedant was always welcoming and kind during class and office hours.

8. Please describe any practices that the Instructional Assistant specifically used that particularly helped you to learn the material and/or encouraged you to feel that you could succeed in the course.

His review sessions were amazing. I wish I had gone to them every week (usually I just forgot). He was so good at describing and connecting the material and went at a really good pace.

In the office hours I had with Vedant, he was very helpful when I had questions about my final paper. He's very knowledgeable and knows how to explain complex concepts simply.

In Vedant's review sessions he would explain topics discussed in the class in different ways and would take more time to explain them which was extremely helpful.

9. Please offer constructive suggestions that might help the Instructional Assistant improve their contribution to your learning of the course material.

No notes that I can think of!
